OUR HISTORY

35 Years Of Passion For Shooting Sports

Our Family heritage and passion for the shooting sports and hunting has been passed down from the generations in the Damarin family. It was no wonder in 1982, our founder John E. Damarin developed the best quality cleaning products Made In America. When I was a young boy, I remember traveling with my parents going to shotgun, rifle, and pistol matches all over the Midwest every weekend. Shooting has always been our family's hobby, as my Father and Mother shot together in many matches. I was always with them shooting or helping them sell our products at the local matches or gun shows. For me shooting and gun cleaning has been a way of life and passion, not a job or task, but truly a way of life.

Accuracy only comes with consistency, so quality is very important for all aspects of shooting.

My Father started Pro-Shot with the goal of making quality firearm cleaning products that worked faster and easier. Not to mention, American Made right in our hometown of Taylorville, Illinois. This was something that would not be compromised or changed ever, as my Father always believed we could make the best quality products in America. John E. Damarin truly loved his family, country, and shooting. From the early days, my Grandmother was an important part of Pro-Shot. She helped in any way she could, and taught us many lessons. She is the reason we pack our orders very organized and neatly. Our customers can tell you Pro-Shot is the best in the industry. Grandpa would pull customers' orders, Mother would help in the office and shipped orders. I was in charge of helping do whatever was needed, from sweeping the floor to making products with my Father. Even my Uncle helped in the early years with printing. Pro-Shot is truly a story of one family's American dream turned into reality.

As a young child around the fall of 1981, my father was telling me how our shooting buddy had gotten a plastic patch holder stuck in the bore of his gun during an important match. His friend was cleaning between rounds and the plastic patch holder broke off inside his barrel. Then he took the firearm home and heated the barrel up over the stove to get the patch holder removed from the bore. That's when my Father told me "Son, we can make gun cleaning accessories better than that." From this problem that our shooting buddy had, Pro-Shot was born in our small one car garage. Our first product we manufactured was firearm cleaning patches, and I must tell you as a young boy it was a lot of work making them by hand and printing the bags ourselves. My Father taught me the importance of quality, value, innovation, and hard work.

We continue to pass down our passion, quality, and excellent service for the shooting sports to the 4th generation. Thank you for your support of Pro-Shot Products, and we hope you enjoy our products as much as our family and dedicated staff enjoy making them for shooters across the globe.

Yours In Cleaning,

John Damarin

PISTOL CLIP

Display Stands

ITEM # RW-1 (10 Pack)
ITEM # RW-100PK (100 Pack)

Attach to the front of a glass shelf to display handguns closer to the customers view for increased visibility. Pistol Clips allow for more guns to fit on a single shelf by being placed at an angle rather than being laid flat on their side. It also gives an exact return location for sales associates to place pistol, keeping your displays looking professional and organized, saving time in the process.

FREE STAND

Displays

ITEM # RWS-10PK (10 Pack)
ITEM # RWS-2PK (2 Pack)
ITEM # RWS-100PK (100 Pack)

Display Stands will give a great presentation of your inventory, while also displaying the maximum amount of pistols possible in the given area. Free Stand Displays also insure that every time the gun is taken out of the cabinet it is returned to the same exact location, making organization and presentation a breeze.

Use in combination with RW-1 to complete the bottom shelf of a glass case. Great for individual pistols for gun safes, allows for quick and easy access.

PISTOL CLIP

Safe Holders

Item# PSH4 (4 Pack)
Item# PSH100 (100 Pack)

Organizes and Hangs Pistols in your safe with these innovative Pistol Safe Holders. Finally, you can use the most open space in your safe directly under the shelves.

Durable Vinyl coated finish protects pistol barrels.

Offers quick and easy access to your pistols and maximizes your safe space.

- Fits 22 Caliber and Up Pistols

- For Use on 5/8" - 1" Thick and at Least 10" Deep Shelves

- Fits Handguns with an overall length of 10" Inches/25cm

- Vinyl Coated Finish

- MADE IN THE USA

SCOPE / KNIFE / SUPPRESSOR

FLEXIBLE CHAMBER TOOL

ITEM# CH1

The flexible chamber tool is used for cleaning semi-automatics and lever action firearms that are not easily taken apart. The tool has a flexible cable that is used through the loading or ejection port of the action to gain access to the chamber. The attachment of a bore brush with a patch wrapped around the brush does an excellent job of cleaning the chamber.

8" Working Length • 8/32 Thread

37MM / 40MM GRENADE LAUNCHER ROD

ITEM# 37GLRD

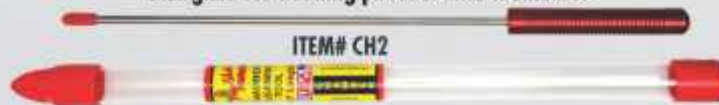

The Rod is designed specifically to clean and maintain the military issue M203 (40mm) grenade launcher and 37mm variants. The cleaning rod features micro-polished stainless steel and a fixed red aluminum handle.

Thread Size Is #5/16-27

- 12" Stainless Steel Rod • Fixed Aluminum Handle

CHAMBER ROD

10" working length stainless micro-polished rod with red fixed handle. Designed for cleaning pistol or rifle chambers.

ITEM# CH2

2 PIECE SHOTGUN ROD

Ultra high quality shotgun rod has non-swivel large brass handle with micro-polished stainless steel rod. Superior function and design make this our best multi-section rod ever. Comes with patch holder for all gauges. Available in 36" length for longer barrel shotguns and 30" length for shorter barrels.

Item #	Rod Length	Works For
2PS-30-10/410	30"	All GA.
2PS-36-10/410	36"	All GA.

Premium Stainless Steel Micro-Polished Rods

Stainless Micro-Polished Rod with Swivel Handle

Fixed Brass Shotgun Handle with Stainless Micro-Polished Rod

Why is a Pro-Shot rod the best in the world?

- Pro-Shot made to spec stainless steel is less hard than barrel steel
- Heat treated for strength and durability. Increases the rod life and performance due to less rod flex during use
- Centerless grinding process on all rods
- Pro-Shot rods have two additional steps to the manufacturing process: Mirror Finish Polish and Micro Polishing/Burnishing
- The Mirror Finish Polish prevents the rod from picking up abrasive fouling or grit and carrying it through the bore scratching the barrel
- Micro Polishing/Burnishing builds the coating into the rod manufacturing process to give the stainless a pristine and totally smooth jewelled finish
- Proprietary handle design allows rod to spin with rifling and clear the high stocks of certain rifles with ease
- Easily handle harsh solvents with no rod deterioration
- Each rod includes a patch holder or jag
- Advertised length is the actual working length of the rod, for full length add four inches for the handle
- Packaged and shipped in a reusable plastic tube for storage and transport

FOULING BLASTER

- Synthetic Safe Degreaser/Cleaner
- Safe for Most Firearm Finishes
- Quickly evaporates & Blasts Fouling away
- Solves most malfunction problems
- Makes cleaning firearms faster & easier
- Cleans fast, will not harm most plastic, wood, laminates, composites, rubber grips or any other material including camo finish

* Always Check Before Using. Especially On Antique Or Special Finishes.

ITEM# D-14

PRO-GOLD LUBRICANT

Excellent for Firearms, Reloading Tools, Sports Equipment, Fishing Tackle & Compound Bows.

A special high-quality formula grease engineered for firearm lubrication and protection. Superior performance on stainless, chrome moly, nickel and blued firearms. Prevents metal wear in the following areas: bolt action locking lugs, actions, frame rails, shotgun hinge pins, reloading tools, bearings, gear & camming surfaces.

Item #	Description
PGL-SYR	10cc SYRINGE
PGL-1	1oz. Jar

CHOKE TUBE LUBE

Excellent for use on shotguns with choke tubes. Superior anti-seize lubricating compound prevents stuck choke tubes and makes changing them easier.

ITEM# CTL-SYR

1-STEP GUN CLEANER & LUBRICANT

- **Excellent For** Removing Lead, Powder, Plastic & Copper Fouling
- Repeated use protects the bore and lessens fouling and residue buildup
1-Step CLP penetrates the metal making gun bores & actions easier to clean
- **Cleans** and eliminates stiff actions, jamming, and loosens rusted parts
- **Lubricates and Protects:** Rust inhibitors and special additives penetrate the metal and provide a corrosion barrier for superior rust protection
- Synthetic Proprietary formula is based on a unique blend of **NON-HAZARDOUS & ENVIRONMENTALLY FRIENDLY INGREDIENTS**

Item #	Description
1STEP-1NEEDLE	1 oz. Needle Bottle Oiler
1STEP-8	8 oz. Bottle
1STEP-GAL	Bulk 1 Gallon Jug

Use Pro-Shots 1-Step 1oz. needle dropper for pinpoint accuracy with no mess. Also great for those hard to reach areas that need cleaned.

ZERO FRICTION ADVANCED SYNTHETIC LUBRICANT

*Premium Ultra-High Technologically Advanced Synthetic Lubricant
Specifically Designed For Firearms and Knives*

Zero Friction's combination of a premium synthetic base, extreme pressure additives, anti-wear, anti-oxidants and rust preventative additives provide superior smooth performance and protection on all moving metal parts. Extreme heat and cold multi-functional lubrication operating from -75° to over 450° Fahrenheit.

Item #	Description
ZF-1	1 oz. Needle Bottle Oiler
ZF-SPRAY-6	6 oz. Spray Can
ZF-GAL	Bulk 1 Gallon Jug

BIO-4X ALL WEATHER GUN OIL

- Non-Toxic, Biodegradable, Odor-Free Lubricant
- 4x as lubricious as petroleum based lubricants
- Repels Water
- Made from renewable USA grown crop-based vegetable oils
- Helps parts function better - frees rusted parts, prevents corrosion
- Instantly penetrates and lasts longer so it can be applied less often
- Reduces heat and friction better than petroleum based products
- Higher flashpoint than petroleum, so it's safer to use
- Higher viscosity so it's less likely to thin out at higher temperatures
- Higher film strength so it can withstand pressure better
- Multi-Purpose and all weather lubricant and penetrate
- -40° to 590°F operating temperature range

Item #	Description
BIO4-1-Needle	1 oz. Needle Bottle Oiler
BIO4-Gal	Bulk 1 Gallon Jug

**4x
MORE
LUBRICATION**

COPPER SOLVENT IV

- Copper Solvent IV is a **Superior New Generation Formula** that is made specifically for copper and powder fouling, while providing rust protection for your barrel.

How It Works Fast & Effectively To Clean Your Barrel

- Our synthetic formula uses activated positively charged ion additives that have a special affinity for copper and its oxides. The positively charged ions search out the negatively charged copper and copper oxide molecules. They bond and release the copper from the surface of the bore to provide a superior clean surface without copper and powder fouling
- Copper Solvent IV is **SMARTER, HEALTHIER and ENVIRONMENTALLY SAFER** way to clean than the old brute force method of throwing harsh chemicals at copper fouling
- A fouling free barrel can give you improved accuracy

Item #	Description
SVC-8	8 oz. Bottle
SVC-GAL	Bulk 1 Gallon Jug

SILICONE CLOTH

(DOUBLE TREATED)

Our Silicone cloth has become a shooter's favorite, made of double napped 100% cotton flannel and double treated with pure silicone. Removes fingerprints, potentially corrosive epidermal oils, polishes and cleans. Packaged in a resealable poly bag, staying clean and moist after use.

Item #	Description
SILC	14"x15" (210Sq In.)

LEAD CLEAN GUN CLOTH

Excellent for Stainless Steel Firearms. Restores original luster, while removing lead, carbon residue, and tarnish. Cloth can be cut to desired size or into patches to remove unwanted residue inside the chamber, cylinder, forcing cone, and the bore/choke area. Comes in resealable bag.

NOT TO BE USED ON BLUED FINISHES

Item #	Description
LCC	8.75"x11.25" (98.45sq in.)

METAL CARE CLOTH

(MAKES POLISH OBSOLETE)

This cloth makes polish obsolete. Cleans all metal exterior on firearms including blued and stainless surfaces. Removes surface rust and tarnish. This non-toxic cloth also works great for cleaning and protecting knives, tools, and other gear. Comes in a resealable bag for future use.

Item #	Description
MMC	13"x15" (180Sq In.)

WIPING CLOTH

12" x 12" non-treated cotton flannel cloth. Finished on both sides for absorbency. Can be used for wiping firearms or about any other object. Package contains 3 cloths.

Item #	Description
WIPE	12"x12" (144Sq In.)

TACTICAL WIPE CLOTHS

This set of tactical shooters wipe cloths include one yellow and one white 18" x 22" cloths. The cloths are 100% cotton flannel finished on both sides and are intended for wiping any excess oils from your firearm during and after the cleaning process. Pro-Shot's Tactical Wipe Cloths are great to keep with your favorite tactical gear for a handy, untreated, and quality cleaning cloth.

Item #	Description
TWC	18"x22" 1 Yellow / 1 White

ORIGINAL PRO-SHOT FAMOUS "BENCHREST QUALITY" BORE BRUSH

Used by world record shooters, competition shooters, hunters, law enforcement, and hobbyists for their durability and precision cleaning.

- Brass core with looped end and bronze bristles, with brass coupling (Benchrest Style)
- No harm bore brush, safe for all bores
- Designed to withstand frequent use
- Oversized for longer life and increased cleaning power
- All brushes have #8-32 thread, except .17 & .20 Cal. which are #5-40 thread
- All pistol and rifle bore brushes are available in dozen packs and individual packs

TORNADO BRUSHES

Often referred to as "The Gunsmith Brush", Pro-Shot's Tornado brush has a special spiral-wound design that's highly effective for cleaning bores. The brass loops eliminate any bristle ends that could leave scratches, yet removes fouling without damaging bore. Spiral design reaches all of the hard to get spots.

The Mopster

Shotgun Barrel Cleaning Tool

Excellent for Quick Cleans of your Shotgun in the field, or at the range!!

The Mopster Shotgun Barrel Cleaning Tool is made with a Premium Wool wrapped rigid rod.

Premium Wool is used because of its natural lanolin properties that make it waterproof while being able to absorb about 30% of its weight without feeling wet. This makes the Pro-Shot Mopster an excellent tool for quick cleans after long days of hunting and at the range. For long term storage, the Mopster can be used in combination with our Zero Friction Superior Oil as a final application of oil to the bore.

Features & Benefits:

- Full-size rod covers full length of bore
- Includes Removable Heavy Duty Patriot Series Nylon Bore Brush
- Comfortable Wood handle and rigid internal rod gives you plenty of leverage
- Completely washable so you can use them over and over
- Packaged in reusable tube for trouble-free storage

* Includes a removable heavy duty nylon Patriot Series bore brush that knocks fouling loose from the barrel, while the premium wool wrapped rod collects debris and removes powder and carbon fouling fast and easy.

Item# SM-36-12 12 GA. 36" (91.4cm) Working Length

Item# SM-32.5-20 20 GA. 32.5" (82.55cm) Working Length

Small Gauge Mopster

FITS 28 GAUGE / 410 GAUGE

NEW FOR
2017

Excellent for Quick Cleans of your Shotgun in the field, or at the range!!
The Small Gauge Mopster is made with a rigid internal rod and wrapped with Premium Wool.

Features and Benefits:

- * Full-size rod (32.5" / 82.55cm Working Length) covers full length of bores
- * Small Gauge Mopster threaded on end to accept Standard American Threaded accessories #5/16-27
- * For extra cleaning power, add your favorite Pro-Shot Bore brush or mop during cleaning
- * Rigid Internal Aluminum Rod and sturdy handle allows for plenty of leverage
- * Packaged in reusable tube fore trouble-free storage

COTTON MOP BRASS SNAP CAPS

Many Shotgun manufacturers recommend storing shotguns with the cocking spring tension let off. This can add to the functional life of the shotgun and keep it in optimum working order.

- Our Snap Caps are made with beautiful brass heads, which have spring loaded firing pins for the ease of tension that is released when the shotgun is fired.

- Pro-Shot's quality brass snap caps have cotton mops that fit into the chamber area for chamber rust protection, use Pro-Shot Zero Friction or Bio4-X LP for added rust protection.

GUN BRUSHES

Great all around utility brushes can be used for cleaning, polishing, and restoring. Nylon bristles have the cleaning power to remove fresh carbon or powder residue inside or out of your firearm, but won't scratch the finish. Bronze bristles clean more stubborn residue on metal surfaces that require more aggressive scrubbing action like inside slides, receivers, or locking lugs. You can use a cleaning patch over the bristles to help remove fouling during use. Stainless steel is best for aggressive cleaning of fouling other brushes cannot remove. Use stainless steel on interior surfaces only, because it will scratch and mark most gun steels and finishes.

Bore Guides should be used when cleaning a Bolt Action Rifle. Bore Guides protect the bore throat and keep cleaning solvent from getting into the trigger mechanism. Our "STOPPER" Bore Guides are made from aircraft grade anodized aluminum for quality and durability. The brass pin holds the anodized aluminum sleeve in place, and does not work loose like plastic parts will. The Delrin tip and end screw onto the red anodized aluminum tube to firmly fit and center the rod throughout the cleaning process. The extra tips and solvent port ends included in Item # BG22-30 are laser engraved for size identification. White Tips/Ends: .22 Centerfire - .25 Cal., Black Tips/Ends: .26 - .30 Cal.

AR PLATFORM BORE GUIDES

All other Pro-Shot Bore Guides are manufactured using Delrin. Delrin is a chemical resistant material that will stand up to continual use. Available in the actions listed below. All AR Platform Bore Guides have a solvent port for convenience and efficiency.

BGAR300-BLKOUT	.300AAC BLACKOUT	7.62x35mm

AR CLEANING LINK

The AR hold-open link separates upper and lower receiver assemblies, locks them in place, and prevents the receiver from flopping closed constantly while trying to clean. Delrin link installs in seconds and is impervious to solvents. It uses the original rear pin and pin hole for attachment. Enables you to easily clean and lube the action or swab out the barrel from the breech end without the hassle.

Fits AR15 Platform

ITEM# ARCL

Promote Your Business *With Us* Ask About Our Exclusive Co-Branding Program

All Classic Box Kits listed are available for the Pro-Shot Exclusive Co-Branding Program.

Why CO-Brand with Pro-Shot?

*Increase Awareness and your company's image by adding something very unique to your accessory selection that no other company in the industry is offering! Enhance your accessory aisle with these quality kits, while bringing credibility and appeal to your cleaning accessory line.

*A powerful way to introduce first time and repeat gun buyers to Pro-Shot Quality and to increase future sales at your store while promoting your company's name.

*Co-branding enables your Store to benefit from years of loyal Pro-Shot users with the "Halo of Affection" that has been built with quality since 1982.

*Excellent add on sale to a new gun purchase. Everything the new gun owner needs in one convenient Quality Kit with your brand/store name on the front. Your customer will see your store's logo/name each time they clean their gun. Customers know where to go to purchase more cleaning supplies or their next new firearm.

*The most complete and SUPERIOR QUALITY kit in the industry available to your customers with your brand/store name on it!

NO EXTRA CHARGES for Co-Labeling Program, all it takes is a high resolution image of your logo emailed to service@proshotproducts.com

Minimum opening order of 25 kits for Exclusive Co-Labeling Program, Reorder Minimum 12 Kits.
