About us

SPERAS, founded in Shenzhen, is a high-tech company, producing premium portable lighting equipment. The strong R&D team, production and sales departments are dedicated to ensure the customers get the best lights on the market at a cost-effective price.

Our professional flashlights are suitable for many applications like military, police, law enforcement and rescue workers, but also hunters, outdoor fans and the general public will appreciate SPERAS flashlights.

Focusing on user experience, SPERAS, aims on providing flashlights with excellent product performance and reliable quality tailored to our customers' needs. All SPERAS LED flashlights are manufactured to meet ANSI standards in terms of waterproof rating and impact resistance. We have strict quality control procedures in place to ensure SPERAS customers can rely 100% on our products meeting all advertised specifications.

Currently, our product lines include military & police series, search light series, hunting series, and everyday carry (EDC) flashlights. Our main markets are Europe, North America and Asia but we can serve any markets worldwide.

SPERAS, derives and formulates from the Latin word SPERO which means hope. We hope that SPERAS will light your way.

BLUDIVE, a brand of SPERAS lighting, specializes in the manufacture of scuba diving equipment like: diving torches, diving masks and diving photography equipment etc.

M10 Plus
SLIM EDC Light　　　　LUMINUS SST20 LED

DESCRIPTION

The M10plus is a slim metal tail switch EDC flashlight powered by two AAA batteries.Its high-performance LED, paired with a PMMA TIR optic lens, produces a soft and balanced beam with a max 250 lumen setting. With double battery power compared to the M10, its runtime reaches up to 100 hours at Low mode. The slim and lightweight design is perfect for handheld use with its non-slip knurling. It also features a two-way pocket clip that can easily clip onto a pocket or backpack strap. Powerful, stylish, and with extended runtime, the M10Plus is a great EDC light to tackle everyday tasks.

FEATURES

¤ Powered by convenient and widely available 2 AAA batteries producing an output of 250 lumens.
¤ Easy carry: Barely know M10 plus is there with its lightweight and slim body factor. The dual-way pocket clip makes the M 10plus even more convenient for carrying in a pocket or attaching to a hat or strap.
¤ Easy operation with Memory function, quick select the brightess and quick access into the brightness that stoped last time.
¤ The M10Plus is equipped with a TIR PMMA optic lens producing a soft and balanced beam for comfortable use.

ADVANCED HIGH-PERFORMANCE LED

DESCRIPTION

SPERAS M4 is a new release EDC flashlight, which utilizes advanced high-performance LED, emits bright light up to 1320 lumens, and reaches 652m (2130ft). It packs 7 different light modes, Turbo, High, Medium, Low, Strobe and SOS mode, with impressive runtimes (Up to 220 hrs. in Eco mode). With its user-friendly interface and memory function this is an ideal flashlight for daily use, camping etc.

FEATURES

¤ High transmittance PMMA materials used to create a well-designed TIR lens for an optimal light beam.
¤ USB-C charging with a smart power indicator system for optimal charge and power status indication.
¤ High efficient circuit, flicker-free, and a max of 220 hrs. runtime in Eco mode.
¤ Reverse polarity protection to avoid circuit damage when the battery is incorrectly installed.
¤ Over charge/discharge protection to extend battery life.
¤ Lock function to avoid unintended operation.
¤ Aerospace 6061 Aluminum Alloy with Type III Hard-anodizing for a durable and anti-abrasive flashlight.

E10

**1300lumen Competitive USB-C Light**　　　　　　　　LUMINUS SST40 LED

DESCRIPTION

The Speras E10 is a multifunctional flashlight specifically designed for EDC, urban and outdoor use. It is a powerful light that utilizes a Luminous SST40 led with a maximum output of 1300 lumens. This compact robust flashlight is multiple-battery-sourced flashlight and with the USB-C charging you'll be able to get batteries or charge anywhere. This makes it ideal for any off grid activities like camping and hiking. With the Lockout function users can be assured that the flashlight will not unintentionally power on in their pocket or bag.

FEATURES

¤ Utilized Luminous SST40 led, Max 1300 lumen, 175m distance
¤ Compatiable with 1*18650 and 2*CR123 battery, user can extend the runtime by installing another type of battery
¤ Max 157Hrs runtime at Low mode, 10lumens, equals 6.5 days.
¤ 4-levels power indicator system, clearly tell the remaining power
¤ Type-C charging and handy size, make it portable and be applied as EDC light, camping light and night walk night etc.

PZ18
Professional Zoomable Flashlight　　　　　　　　　　Luminus SST40 LED

DESCRIPTION

The SPERAS PZ18 is a high-tech zoomable flashlight. Equipped with an advanced structure and an advanced driver design, the focused output can reach up to 333lm with a maximum beam distance of 420m. The unfocused / flood output can reach up to 1600lm with a maximum beam distance of 85m. It supports USB-C for fast charging reaching a full charge within 4 hours. Powered by a single 18650, 3100mAh, battery it provides a long run time of up to 51H. With the focus function, the PZ18 can provide the user with a flood or spot beam to achieve the desired light on the target. It is an ideal flashlight for search and rescue and outdoor activities like camping, etc.

FEATURES

- ¤ 1600lm, 18650 battery zoomable flashlight
- ¤ USB-C charging
- ¤ The flashlight allows a flood beam or a focus beam to achieve the desired light on the target

P4
Powerful Search Flashlight　　　　　　　　　　3 PCS OSRAM P9 LED

DESCRIPTION

The SPERAS P4 is a high performance LED flashlight with 4000lm max output that utilizes 3pcs imported OSRAM LEDs. Users can switch between the 7 brightness settings. Powered by a 21700 Lithium 5000mAh battery, a maximum runtime of 167H can be achieved. It's an ideal flashlight for searching, rescue or other outdoor activities with the compact size and functional user interface. With the Lockout function, users can be assured that the flashlight will not unintentionally power on when put in the pocket or bag.

FEATURES

- ¤ 3 OSRAM LEDs (max 4000lm with 288m beam distance), compact and powerful.
- ¤ Compatible 1*21700 5000mAh battery, provide long runtime for max 167 hours at ECO mode.
- ¤ Type-C charging function: the flashlight can be fast charged within 3 hours.
- ¤ Power bank function: the flashlight could be used as a power bank to charge various electronics.
